List of Figures iv
List of Tables vi

1 METAMATERIALS AND THEIR UNUSUAL PROPERTIES 1
   1.1 Effective Medium Theory 2
   1.2 Classification of Metamaterials by Physical Phenomena 3
       1.2.1 Left-Handed Materials 4
       1.2.2 Metamaterials with ultra low index 8
       1.2.3 Enhanced Metamaterials 10
       1.2.4 Nihility Materials 10
   1.3 Metamaterial Quadrants Set 11
   1.4 The Rod Metamaterials Structures 14
   1.5 Planning of the research and method of investigation 15
       1.5.1 Proposed Work and Possible Practical Issues of Planned Research 15
       1.5.2 Objective of Method of Investigations 16

2 MATHEMATICAL MODELS 18
   2.1 The Rod Metamaterials Structures 19
   2.2 The Mathematical Models of Rod Metamaterials Structures 21
   2.3 Elements of S- and T-Matrices Algebra 31
       2.3.1 Scattering parameters 32
       2.3.2 Transfer parameters 35
   2.4 S- and T- Schemes 37
       2.4.1 T-scheme 37
       2.4.2 S- scheme 40

3 THE EVALUATION OF EFFECTIVE PARAMETERS OF SLAB METAMATERIALS 44
   3.1 An Improved Broadband Method for the Evaluation of Effective Parameters of Slab Metamaterials 45
       3.1.1 Introduction 45
