Abstract vii

Acknowledgements ix

Introduction 1

1 Preliminaries 8
   1.1 Newtonian viscous fluid ................................. 8
   1.2 Non-Newtonian fluid .................................. 9
   1.3 Constitutive equations .................................. 11
   1.4 Continuity equation .................................... 12
   1.5 Equations of motion ..................................... 13
   1.6 Integral transforms .................................... 14
      1.6.1 Laplace transform .................................. 15
      1.6.2 Finite Hankel transform .......................... 16

2 Slip Effects on Free Convection Flow near a Moving Vertical Plate with Newtonian Heating 18
   2.1 Introduction ............................................. 18
   2.2 Governing equations ..................................... 19
   2.3 Solution of the problem .................................. 20
   2.4 Solution when Pr=1 ...................................... 24
   2.5 Limiting case $\gamma \to 0$ (non-slip condition) .......... 25
   2.6 Numerical results and discussion ....................... 26

3 Flow due to a plate that applies an accelerated shear to a second grade
