	DECLARATION	ii
	SIGNATURE OF SUPERVISORY COMMITTEE	iv
	DEDICATION	v
	ACKNOWLEDGEMENT	vi
	CONTENTS	vii
	LIST OF TABLES	x
	ABSTRACT	xiv
<b>Chapter 1</b>	<b>INTRODUCTION</b>	01
<b>Chapter 2</b>	<b>REVIEW OF LITERATURE</b>	06
2.1	Varietal resistance/ Infestation	06
2.2	Impact of Weather Factors on Infestation	12
2.3	Physico-Morphological, Chemical and Qualitative Factors	13
2.4	Chemical Control	15
2.5	Biological-Control	16
2.6	Cultural and Mechanical Control	18
2.7	Combined Control Measures (IPM)	19
<b>Chapter 3</b>	<b>MATERIALS AND METHODS</b>	22
3.1	Preliminary screening of varieties against <i>Chilo infuscatellus</i>	22
3.2	Final screening of varieties against <i>Chilo infuscatellus</i> .	22
3.3	Host Plant Susceptibility Indices (HPSI's)	23
3.4	Role of Abiotic Factors	23
3.5	Method To Test The Mechanism Of Resistance In Sugarcane	23
3.5.1	Qualitative Factors	23
3.5.1.1	Analysis Of Sugar Cane	23
3.5.1.2	Juice Extraction	23
3.5.1.3	Brix (%)	23
3.5.1.4	POL (%)	24
3.5.1.5	Commercial Cane Sugarcane (CCS)	24
3.5.1.6	Fiber Contents	24
3.5.1.7	Sugar Recovery	25
3.5.2	Physico-Morphic Factors	25
3.5.2.1	Leaf Thickness	25
3.5.2.2	Leaf Area	25
3.5.2.3	Leaf Sheath Hairiness	25
3.5.2.4	Stalk Girth	25
3.5.3	Studies For The Biochemical Plant Factors	26
3.5.3.1	Sampling Procedure	26
3.5.3.2	Total minerals	26
3.5.3.3	Fat Contents	27
3.5.3.4	Moisture Content	27

3.5.3.5	Carbohydrates	27
3.5.3.6	Macro And Micro Nutrients	27
3.5.3.6.1	Analysis of samples and standards	27
3.5.3.6.2	Atomic Absorption Spectrophotometer analysis	28
3.5.3.7	Nitrogen	28
3.6	Chemical Control	29
3.7	Biological control	30
3.7.1	Rearing of <i>Sitotroga cerealella</i>	30
3.7.2	Rearing of <i>Trichogramma chilonis</i>	30
3.8	Cultural and Mechanical control	31
3.9	Integration of various control methods	32
<b>Chapter 4</b>	<b>RESULTS</b>	33
4.1	Preliminary Screening of Various Sugarcane varieties	33
4.2	Screening of varieties base on the infestation (%)	33
4.3	Infestation Fluctuation at various dates of observation during 2008	33
4.3	Final Screening of varieties of Sugarcane	36
4.4	Screening of varieties on the basis of infestation (%)	36
4.5	Infestation Fluctuation at various dates of observation during 2009	36
4.6	Host Plant Susceptibility Indices (HPSIs)	39
4.6.1	Host Plant Susceptibility Indices (HPSIs) during 2008	39
4.6.2	Host Plant Susceptibility Indices (HPSIs) during 2009	39
4.6.3	Host Plant Susceptibility Indices on Cumulatively during 2008-2009	39
4.6.4	Role of Weather Factors on the Pest Infestation	43
4.6.5	Effect of Abiotic Factors on Infestation of Sugarcane stem borer during 2008	43
4.6.6	Effect of Abiotic Factors on Infestation of Sugarcane stem borer during 2009	43
4.6.7	Cumulative effect of Abiotic Factors on Infestation of Sugarcane stem borer during 2008-09	43
4.7	Role of Qualitative Factors on the Stem Borer Infestation	47
4.7.1	Correlation Coefficient between Qualitative Factors and Stem Borer Infestation	47
4.7.2	Role of Physico-Morphic Factors on the Stem Borer Infestation	47
4.7.3	Role of Chemical plant Factors on the Stem Borer Infestation	48
4.7.4	Qualitative analysis	53
4.7.4.1	Brix Contents (%)	53
4.7.4.2	POL (%)	53
4.7.4.3	Commercial Cane Sugar (CCS)	53
4.7.4.4	Fiber Contents (%)	53
4.7.4.5	Recovery (%)	54
4.7.4.6	Fat %	54
4.7.4.7	Moisture content (%)	54
4.7.4.8	Carbohydrates (%)	55

4.7.5	<b>Physico-Morphological Factors</b>	64
4.7.5.1	Leaf Area	64
4.7.5.2	Leaf Sheath Hairiness	64
4.7.5.3	Leaf Thickness	64
4.7.5.4	Plant Girth	64
4.7.6	<b>Chemical plant Factors</b>	70
4.7.6.1	Total Minerals (%)	70
4.7.6.2	Nitrogen (%)	70
4.7.6.3	Phosphorous (%)	70
4.7.6.4	Potassium (%)	70
4.7.6.5	Calcium (%)	71
4.7.6.6	Magnesium (%)	77
4.7.6.7	Copper (ppm)	77
4.7.6.8	Ferrous (ppm)	77
4.7.6.9	Manganese (ppm)	77
4.7.6.10	Zinc (ppm)	78
4.8	Chemical Control	85
4.9	Biological Control	85
4.10	Cultural and Mechanical Control	85
4.11	Integration of Various Controls	85
<b>Chapter 5</b>	<b>DISCUSSIONS</b>	91
5.1	Varietal Resistance	91
5.2	Role Of Abiotic Factors On Sugarcane Stem Borer	92
5.3	Physico –Morphological and Qualitative Plant Factors	93
5.4	Chemical Plant Factors	94
5.5	Chemical Control	94
5.6	Biological Control	95
5.7	Cultural and Mechanical Control	96
5.8	Integration of Various Controls	97
<b>Chapter 6</b>	<b>SUMMARY</b>	99
	<b>REFERENCES</b>	102
