CONTENTS

1. INTRODUCTION
   1.1. Polymers
   1.2. Conjugation
   1.3. Microencapsulation
   1.4. Concept of Drug Delivery
   1.5. Modified Release Dosage Forms
   1.6. Targeted-Release Dosage Forms
   1.7. Controlled Drug Delivery
   1.8. Tablet
   1.9. Flurbiprofen
   1.10. Ibuprofen
   1.11. Ketoprofen

2. MATERIALS AND METHODS
   2.1. Materials and Chemicals
   2.2. Synthesis of polymers
   2.3. Preformulation Studies
   2.4. Formulation Development
   2.5. Preparation of Tablets
   2.6. Physical Characterization of the Tablets
   2.7. In Vitro Drug Release Study
   2.8. Drug Release Kinetics Investigation
   2.9. Similarity Factor (f2)
   2.10. In Vivo Drug Evaluation
   2.11. Selection of Animals
   2.12. Collection of blood samples
   2.13. Sample analysis
   2.14. Preparation of standard curve
