

I CONTENTS

	PAGE
SUMMARY	1-2
INTRODUCTION	3-47
1. Asthma Prevalence and mortality	3-7
2. Natural history of asthma	8-9
3. Patho physiology of asthma	10-20
4. Clinical aspects of asthma	21-31
5. Factors that influence asthma	32-34
6. Oxidative stress	35-37
7. Antioxidant defense	39-41
8. Exogenous antioxidants	43-44
9. Minerals as antioxidant defense	45
10.Trace elements	46
11.Total antioxidant capacity	47
AIMS AND OBJECTIVES	48
MATERIALS AND METHODS	49-63
1. Patients and methods	49-50
2. Spirometry, equipment selection and maintenance	51-52
3. Collection of blood	53-54
4. Detection of heavy metals by atomic absorption	55-56
5. Determination of serum vitamins	57-58
6. Estimation of enzyme activity	59-61
7. Statistical Analysis	62-63

II

RESULTS	64-148
1. Patients age distribution	64-66
2. Number of patients and controls by age group	67- 70
3. Comparison of spirometry in patients and controls	71- 78
4. Antioxidants, enzymes, vitamins and trace elements	79-88
5. Pearson correlation – male patient and control	89-103
6. Pearson correlation –female patient and control	104-117
7. Multivariate analysis	118-148
DISCUSSION	149-159
CONCLUSION	160
REFERENCES	161-188
APPENDICES	189-199
