

LIST OF CONTENTS

i.	Acknowledgement.....	v
ii.	List of Tables.....	xiii
iii.	List of Figures.....	xvii
iv.	List of Appendices.....	xviii
v.	Abstract.....	1
1.	INTRODUCTION.....	2
2.	REVIEW OF LITERATURE.....	8
2.1.	Maillard model systems.....	8
2.1.1.	Reducing sugars.....	9
2.1.2.	Antioxidant activity of Maillard reaction.....	10
2.1.2.1.	DPPH scavenging activity.....	10
2.1.2.2.	β -carotene bleaching assay.....	12
2.1.2.3.	Total phenolic contents.....	12
2.1.3.	Volatile compounds of Maillard reaction.....	14
2.1.4.	Acrylamide content in Maillard reaction.....	16
2.2.	Acrylamide mitigation strategies.....	17
2.2.1.	Vacuum treatment.....	18
2.2.2.	Use of hydrocolloids.....	20
2.2.3.	Use of cations.....	21

2.3.	Effects of acrylamide on serological aspects of rats	22
2.4.	Analysis of bakery products.....	25
2.4.1.	Color.....	25
2.4.2.	Texture.....	26
2.4.3.	Volume.....	28
2.4.4.	Antioxidant activity of bakery products.....	29
2.4.5.	Reducing sugars in bakery products.....	30
2.4.6.	Determination of acrylamide concentration in bakery products.....	31
3.	MATERIALS AND METHODS.....	33
3.1.	Materials.....	33
3.2.	Preparation of different model systems.....	33
3.2.1.	Storage of prepared model systems.....	33
3.2.2.	Extraction of model systems.....	33
3.3.	Analysis of model systems.....	34
3.3.1.	pH determination.....	34
3.3.2.	Determination of reducing sugars.....	34
3.3.3.	Determination of antioxidant activity of Maillard model systems.....	36
3.3.3.1.	DPPH scavenging activity.....	36
3.3.3.2.	β -carotene bleaching assay.....	36
3.3.4.	Determination of total phenolic contents.....	37

3.3.5.	Determination of volatile compounds.....	37
3.3.6.	Determination of acrylamide concentration by GC/MS.....	38
3.3.7.	Determination of acrylamide concentration by HPLC.....	38
3.4.	Strategies to reduce acrylamide formation.....	38
3.4.1.	Vacuum treatment.....	38
3.4.2.	Use of hydrocolloids.....	39
3.4.3.	Divalent cation method.....	39
3.5.	Analysis for selection of two best model systems.....	40
3.5.1.	pH determination.....	40
3.5.2.	Determination of reducing sugars.....	40
3.5.3.	Determination of antioxidant activity.....	40
3.5.4.	Determination of total phenolic contents.....	40
3.5.5.	Volatiles determination by GC/MS.....	40
3.5.6.	Determination of acrylamide concentration by GC/MS.....	40
3.5.7.	Determination of acrylamide concentration by HPLC.....	40
3.6.	Safety assessment.....	41
3.6.1.	Serological aspects.....	41
3.6.1.1.	Liver function tests.....	42
3.6.1.2.	Serum protein profile.....	42

3.6.1.3.	Renal function tests.....	42
3.7.	Preparation of bakery products.....	42
3.8.	Storage study.....	43
3.9.	Products analysis.....	43
3.9.1.	Physico-chemical analysis.....	43
3.9.2.	Color analysis.....	43
3.9.3.	Texture analysis.....	43
3.9.4.	Bread volume by rapeseed displacement method.....	44
3.9.5.	Antioxidant activity determination of products.....	44
3.9.6.	Determination of reducing sugars	44
3.9.7.	Analysis of acrylamide concentration by GC/MS.....	44
3.9.8.	Analysis of acrylamide concentration by HPLC.....	44
3.9.9.	Sensory evaluation of products.....	45
3.10.	Statistical analysis.....	45
4.	RESULTS AND DISCUSSION.....	46
4.1.	Analysis of model systems.....	46
4.1.1.	pH and reducing sugars determination.....	46
4.1.2.	DPPH, β -carotene bleaching assay and TPC determination.....	49
4.1.3.	Analysis of acrylamide concentration by HPLC and GC/MS.....	51

4.1.4.	Determination of volatile compounds in Maillard model systems.....	56
4.2.	Safety assessment.....	59
4.2.1.	Water and feed intake of rats.....	59
4.2.2.	Acrylamide intake by rats	60
4.2.3.	Feaces and body weight of rats.....	61
4.2.4.	Liver function tests of rats serum.....	68
4.2.5.	Serum protein profile of rats.....	69
4.2.6.	Renal function tests of rats serum.....	75
4.3.	Products analysis.....	77
4.3.1.	Moisture, ash and protein contents of bread.....	77
4.3.2.	Moisture, ash and protein contents of cookies.....	78
4.3.3.	Moisture, ash and protein contents of chapatti.....	82
4.3.4.	Color, texture and volume of bread.....	83
4.3.5.	Color and texture of cookies.....	87
4.3.6.	Color and texture of chapatti.....	89
4.3.7.	DPPH and reducing sugars of bread.....	91
4.3.8.	DPPH and reducing sugars of cookies.....	93
4.3.9.	DPPH and reducing sugars of chapatti.....	95
4.3.10.	Determination of acrylamide concentration of bread by HPLC and GC/MS.....	97
4.3.11.	Determination of acrylamide concentration of cookies by HPLC and GC/MS.....	98

4.3.12.	Determination of acrylamide concentration of chapatti by HPLC and GC/MS.....	99
4.3.13.	External sensory characteristics of bread.....	100
4.3.14.	Internal sensory characteristics of bread.....	107
4.3.15.	Sensory characteristics of cookies.....	111
4.3.16.	Sensory characteristics of chapatti.....	115
5.	SUMMARY.....	119
	CONCLUSIONS.....	135
	RECOMMENDATIONS.....	136
	LITERATURE CITED.....	137
	APPENDICES.....	165
