

Table of Contents

CHAPTER- 1

INTRODUCTION

1.1	Introduction of Polymers.....	1
1.2	Importance of Polymers.....	3
1.2	Schiff base Polymers.....	3
1.3	Polythioamides	4
1.4	Poly Metal Complexes.....	5
1.5	Literature Review (Synthesis of Schiff bases Polymers, Polythioamides, Poly Metal complexes).....	5
1.6	Research Objectives.....	18

CHAPTER- 2

PREPARATION AND CHARACTERIZATION OF SCHIFF BASE POLYMERS DERIVED FROM 4, 4'-METHYLENE BIS (CINNAMALDEHYDE)

2.1	Introduction.....	20
2.2	literature Review.....	20
2.3	Experimental.....	21
2.3.1	Synthesis of dialdehyde of 4,4'-methylenebis(cinnamaldehyde).....	22
2.3.2	Synthesis of Schiff base Polymers from 4,4'-methylenebis (cinnamaldehyde).....	22
2.4	C. H. N Elemental Microanalysis.....	23
2.5	Infrared spectroscopic studies of dialdehyde and their derived Schiff base polymers.....	25

2.6	Ultraviolet visible absorption spectra of dialdehyde and their Schiff base polymers.....	32
2.7	Thermal analyses.....	38
2.8	Viscometric studies.....	47
2.9	Conclusions	65

CHAPTER- 3

PREPARATION AND CHARACTERIZATION OF POLYTHIOAMIDES DERIVED FROM 4,4'-METHYLENE BIS (CINNAMALDEHYDE) BY WILLGERODT –KINDLER- TYPE REACTION.

3.1	Introduction.....	67
3.2	literature Review.....	67
3.3	Experimental.....	69
3.3.1	Synthesis of dialdehyde of 4,4'-methylenebis(cinnamaldehyde).....	69
3.3.2	Synthesis of Polythioamides from 4,4'-methylene bis(cinnamaldehyde).....	69
3.4	C. H. N Elemental Microanalysis.....	70
3.5	Infrared spectroscopic studies of dialdehyde and their derived polythioamides.....	71
3.6	Ultraviolet visible absorption spectra of dialdehyde and their respective polythioamides.....	74
3.7	Thermal analyses.....	81
3.8	Viscometric studies.....	84
3.9	Conclusions	94

CHAPTER 4

PREPARATION AND CHARACTERIZATION OF SCHIFF BASE POLYMERS DERIVED FROM 4, 4'-[NAPHTHYL BIS(OXY)]BIS BENZALDEHYDE

4.1	Introduction	96
4.2	Literature Review	96
4.3	Synthesis of dialdehyde of 4,4'-naphthylbis(oxy)bis benzaldehyde (NBOB).....	98
4.3.1	Synthesis of Schiff base Polymers from 4,4'-naphthylbis (oxy)bisbenzaldehyde (NBOB).....	99
4.4	C. H. N Elemental Microanalysis.....	100
4.5	Infrared spectroscopic studies of dialdehyde (NBOB) and their Schiff base polymers.....	100
4.6	Ultraviolet visible absorption spectra of dialdehyde (NBOB) and their Schiff base polymers.....	106
4.7	Thermal analyses.....	111
4.8	Viscometric studies.....	114
4.9	Conclusions.....	124

CHAPTER 5

PREPARATION AND CHARACTERIZATION OF POLYTHIOAMIDES DERIVED FROM 4, 4'-[NAPHTHYL BIS(OXY)]BIS BENZALDEHYDE

5.1	Introduction.....	126
5.2	Literature Review.....	126
5.3	Synthesis of dialdehyde of 4,4'- naphthylbis(oxy) bisbenzaldehyde (NBOB).....	127
5.3.1	Synthesis of Polythioamides from 4,4'-naphthyl bis(oxy)bisbenzaldehyde.....	127

5.4	C. H. N Elemental Microanalysis.....	128
5.5	Infrared spectroscopic studies of dialdehyde (NBOB) and their derived polythioamides.....	129
5.6	Ultraviolet visible absorption spectra of dialdehyde (NBOB) and their respective polythioamides.....	133
5.7	Thermal analyses	138
5.8	Viscometric studies.....	141
5.9	Conclusions	151

CHAPTER 6

PREPARATION OF POLY METAL COMPLEXES FROM POLYMERS OF 5,5'-METHYLENE BIS(2-HYDROXY BENZALDEHYDE)/6,6'-METHYLENE BIS(2-HYDROXY NAPHTHALDEHYDE)

6.1	Introduction.....	154
6.2	literature Review.....	154
6.3	(Synthesis of poly metal complexes of poly 5,5'-methylene bis(2-hydroxybenzaldehyde)/ 6,6'-methylenebis (2-hydroxy naphthaldehyde).....	158
6.4	C. H. N Elemental Microanalysis.....	159
6.5	Infrared spectroscopic studies of Schiff metal chelates of poly 5,5'-methylenebis(2-hydroxy benzaldehyde), poly 6,6'-methylene bis(2-hydroxy naphthaldehyde).....	160
6.6	Ultraviolet visible absorption spectra of Schiff metal chelates of poly 5,5'-methylenebis(2-hydroxy benzaldehyde), poly 6,6'-methylene bis(2-hydroxynaphthaldehyde).....	167
6.7	Thermal analyses of Schiff metal chelates of poly 5,5'-methylene bis(2-hydroxybenzaldehyde), poly 6,6'-methylene bis(2-hydroxy naphthaldehyde).....	174
6.8	Viscometric studies of Schiff metal chelates of poly 5,5'-methylene bis(2-hydroxy benzaldehyde), poly 6,6'-methylene bis(2-hydroxy naphthaldehyde).....	179

6.9	Conclusions	190
-----	-------------------	-----

CHAPTER 7

EFFICIENCY IN POLYMERS OF BIS (2- HYDROXYL BENZALDEHYDE) AND BIS (2- HYDROXY NAPHTHALDEHYDE) AS ADSORBENT WITH DIFFERENT METAL IONS.

7.1	Introduction.....	192
7.2	Literature Review.....	193
7.3	Synthesis of Schiff bases polymers of 5,5'-methylene bis(2-hydroxy benzaldehyde)azine and 6,6'-methylene bis(2-hydroxy naphthaldehyde)4-iminophenyl ether.....	197
7.4	Infrared study for Schiff base polymers of (2-hydroxy benzaldehyde/ naphthaldehyde).....	199
7.5	U/V- visible study for Schiff base polymers of (2-hydroxy benzaldehyde/ naphthaldehyde).....	201
7.6	Thermal Analysis for Schiff base polymers of (2-hydroxy benzaldehyde/ naphthaldehyde).....	204
7.7	Metal uptake studies for Schiff base polymers of (2-hydroxy benzaldehyde/ naphthaldehyde).....	205
7.7.1	Batch method.....	205
7.7.2	Column method.....	205
7.7.3	Procedure for samples preparations.....	206
7.7.4	Results and discussions.....	206
	(I) Metal ion uptake studies by batch method.....	206
	(II) Metal ion uptake studies by column method.....	211
7.7.5	Application of method.....	212
7.8	Conclusions.....	213

CHAPTER 8

PREPARATION, CHARACTERIZATION AND METAL UPTAKE STUDY OF Cu(II), Ni(II), Fe(II), Co(II) AND Cd(II) ON POLY 5, 5'- METHYLENE BIS (2- HYDROXYL BENZALDEHYDE) 1,2-PHENYLENEDIIMINE FROM REAL SAMPLES.

8.1	Introduction.....	214
8.2	Literature Review.....	215
8.3	Synthesis of Schiff bases polymers of 2-hydroxy benzaldehyde.....	219
8.4	FT.IR study of poly 5,5'- methylenebis (2-hydroxy benzaldehyde)1,2-phenylenediimine.....	220
8.5	Ultraviolet visible absorption spectrum of poly 5,5'- methylenebis (2-hydroxybenzaldehyde)1,2-phenylenediimine.....	221
8.6	TG/ DTA spectra of poly 5,5'- methylenebis(2-hydroxybenzaldehyde) 1,2-phenylenediimine.....	222
8.7	Metal uptake (sorption) studies of polymeric resin of poly 5,5'-methylene bis(2-hydroxy benzaldehyde)1,2-phenylenediimine.....	223
8.7.1:	Static sorption of metal ions.....	223
8.7.2:	Dynamic sorption of metal ions.....	224
8.7.3:	Samples preparation.....	224
8.7.4:	Sorption Procedure for samples.....	225
8.7.5:	Results & Discussion.....	225
	(a) Effect of Ph.....	225
	(b) Quantity of resin.....	226
	(c) Optimum shaking speed.....	227
	(d) Optimum shaking time.....	227
8.7.6	Kinetics of sorption.....	228
8.7.8	Sorption isotherms.....	229
8.7.9	Thermodynamic of sorption.....	231
8.7.10	Stability of sorbent.....	232
8.7.11	Desorption	232

8.7.12	Interference Study.....	232
8.7.13	Analytical Application.....	233
8.8	Conclusions.....	234

CHAPTER: 9

9.1	Results and Discussion	235
------------	-------------------------------------	-----

CHAPTER: 10

10.1	REFERENCES	247
-------------	-------------------------	-----
