*List of Tables* ..... *xiii*  
*List of Figures* ..... *xv*  
*List of Schemes*..... *xvii*  
*Abstract*..... *xviii*

**Part 1**

**CHAPTER 1**

**INTRODUCTION**..... 1  
1.1 Urea: 1  
    1.1.1 Importance of Urea: .....2  
    1.1.2 Determination of Urea: .....4  
1.2 Thiourea: 10  
    1.2.1 Importance of Thiourea:..... 11  
    1.2.2 Determination of Thiourea:..... 12  
1.3 Amino Acids:..... 13  
    1.3.1 Importance of Amino Acids:..... 14  
    1.3.2 Determination of Amino Acids:..... 15  
1.4 *Ortho*-Phthaldehyde: A Reagent for the Determination of Urea, Thiourea  
And Its N-Alkyl/Aryl Derivatives..... 25  
    1.4.1 Chemistry of *OPTA*:..... 26

**CHAPTER 2**

**EXPERIMENTAL** ..... 31  
2.1 Instrumentation/ Chemicals.....31  
2.2 Procurement of Fungal/ Bacterial Species..... 32  
2.3 General Method (I) Test With *P*-Dimethyl aminobenzaldehyde (Brown  
1959) ..... 32  
2.4 Reactions of *ortho*- Phthaldehyde: ..... 32  
    2.4.1 With Urea in Acidic Media:..... 32  
    2.4.2 With Urea in Alkaline Media:..... 35

2.4.3	With N-Methyl Urea in Acidic Media: .....	36
2.4.4	With N-Methyl Urea in Alkaline Media: .....	37
2.4.5	With N- Phenyl Urea in Acidic Media: .....	38
2.4.6	With N- Phenyl Urea in Alkaline Media: .....	39
2.4.7	With N, N'-Dimethyl Urea in Acidic Media: .....	40
2.4.8	With Thiourea in Alkaline Media .....	41
2.4.9	With N-Methyl Thiourea in Acidic Media: .....	43
2.4.10	With N-Methyl Thiourea in Alkaline Media .....	44
2.4.11	With N-Phenyl Thiourea in Alkaline Media : .....	45
2.5	UV/VIS Studies of Reaction <i>opta</i> in Acidic Media: .....	45
2.6	General Method (II) for Antibacterial Studies: .....	47
2.7	General Method (III) for Preliminary Antifungal Bioassay: .....	48
2.8	General Method (IV) for Detailed Antifungal Bioassay: .....	48
2.9	Statistical Data Calculation: .....	49
2.10	X-Ray Crystallographic Studies of Compounds: .....	49
2.10.1	X-Ray Crystallographic Data of (26).....	50
2.10.2	X-Ray Crystallographic Data of (31).....	53
2.10.3	X-Ray Crystallographic Data of (33).....	56
2.10.4	X-Ray Crystallographic Data of (35):.....	60
2.10.5	X-Ray Crystallographic Data of (38):.....	64
2.10.6	X-Ray Crystallographic Data of (39):.....	68

**PART 2**

**CHAPTER 3**

<b>INTRODUCTION OF BIOCIDAL ACTIVITY BY THE FUNCTIONALISATION OF POLYMER SURFACE WITH UREA &amp; THIOUREA FUNCTIONS .....</b>	<b>72</b>
---	-----------

3.1	Structure of Bacteria:.....	73
3.2	Antimicrobial Agents: .....	75
3.3	Polymer Functionalisation:.....	77
3.4	Functionalisation Process: .....	78

**CHAPTER 4**

**EXPERIMENTAL**

<b>SURFACE FUNCTIONALISATION OF POLYMER WITH UREA &amp; THIOUREA FUNCTIONS: .....</b>	<b>83</b>
---	-----------

4.1	Instrumentation/ Chemicals:.....	83
-----	----------------------------------	----

4.2	General Method (V): H-Acid Test for Presence of Diazonium Functionality:	83
4.3	General Method (VI): Functionalisation of Polystyrene Beads: .....	83
4.4	General Method (VII): Coupling of Diazo Compound on Modified Polystyrene Beads:	83
4.5	Synthesis of 4-Bromo Methyl Benzophenone (49):.....	84
4.6	Synthesis of 4- (2 <i>N</i> - Ethyl - <i>N</i> - Phenyl -2- Aminoethyl Oxymethyl) Benzophenone (50): .....	85
4.7	Synthesis of 4- ([ <i>N</i> -Ethyl- <i>N</i> - Phenyl- 2 - Aminoethyl] Oxymethyl) Benzophenone Hydrazone (51):.....	86
4.8	Synthesis of <i>N</i> - (2 - (4 -Diazo ( Phenyl) Methyl) Benzoyloxy) Ethyl) - <i>N</i> - Ethylaniline (52):	87
4.9	Synthesis of Uramil (54): .....	87
4.10	Synthesis of 2-Thiouramil (55).....	88
4.11	Synthesis of Uramil & 2-Thiouramil Diazonium Salt (56a-b).....	88
4.12	Reaction of 4-Bromomethyl Benzophenone (49) & Ethanolamine: .....	89
4.13	Reaction of 4- (Aminoethoxymethyl) Benzophenone (58a) & 4-((2-Hydroxy Ethyl Amino) Methyl) Phenyl) (Phenyl) Methanone (58b) With Phenyl Isocyanate:	90
4.14	Reaction of 1- (2-(4- Benzoyl-Benzyloxy) Ethyl)-3-Phenyl Urea (59a) With Hydrazine Hydrate: .....	92
4.15	Reaction of 1- (2- (4- (Hydrazono (Phenyl) Methyl) Benzyloxy) Ethyl)-3- Phenylurea (60a) With Mercuric Oxide:.....	93
4.16	Reaction of 1-(4-Benzoyl Benzyl) -1- (2-Hydroxy Ethyl) -3- Phenylurea (59b) With Hydrazine Hydrate:.....	94
4.17	Reaction of 1-(4-(Hydrazono (Phenyl) Methyl) Benzyl) -1- (2-Hydroxyethyl)- 3- Phenylurea (60b) With Mercuric Oxide: .....	94
4.18	Reaction of 2-(1-(4-Benzoyl Benzyl)- 3-Phenyl Ureido) Ethyl Phenyl Carbamate (63) With Hydrazine Hydrate: .....	95
4.19	Reaction of 2- (1-(4-Hydrazono (Phenyl) Methyl) Benzyl)-3- Phenylureido) Ethyl Phenyl Carbamate (64) With Mercuric Oxide:.....	95
4.20	Reaction of 4-(Aminoethoxymethyl) Benzophenone (58a) & 4-((2-Hydroxy Ethyl Amino) Methyl) Phenyl) (Phenyl) Methanone (58b) With Phenyl Isothiocyanate:	96
4.21	Reaction of 1-(2-(4- Benzoyl-Benzyloxy)Ethyl)-3-Phenyl Thiourea (67) With Hydrazine Hydrate: .....	98
4.22	Reaction of 1-(2-(4-(Hydrazono-Phenyl-Methyl)-Benzyloxy)-Ethyl)-3- Phenyl Thiourea (68) With Manganese Dioxide: .....	98

4.23	Reaction of 1-(4-Benzoyl Benzyl)-1-(2-Hydroxyethyl)-3- Phenyl Thiourea (71) With Hydrazine Hydrate: .....	99
4.24	Reaction of 1-(4-Hydrazono (Phenyl) Methyl) Benzyl)-1-(2-Hydroxyethyl)-3- Phenyl Thiourea (72) With Manganese Dioxide: .....	100
4.25	General Method (VIII): <i>Bacteria</i> Seeded Agar Plate Preparation:.....	100
4.26	General Method (IX): Polymer Loading on Plates:.....	100
4.27	General Method (X): Hydrogen Peroxide Loading on the Polymer Samples:101	
4.28	General Method (XI): Stability Testing of Hydrogen Peroxide on the Polymer Samples: 101	
4.29	X-Ray Crystallography:.....	101
4.29.1	X-Ray Crystallographic Studies of (59b): .....	102
4.29.2	X-Ray Crystallographic Studies of (63): .....	106
4.29.3	X-Ray Crystallographic Studies of (71): .....	108
<b>CHAPTER 5</b>		
<b>RESULTS &amp; DISCUSSION.....</b>		<b>112</b>
<b>Part I: Reaction of Ureas, Thioureas and Their N-Alkyl/Aryl Derivatives</b>		
<b>With <i>opta</i>:</b>		<b>112</b>
5.1	Reactions with Urea: .....	113
5.2	Reaction with N-Methyl Urea: .....	117
5.3	Reaction with N-Phenyl Urea:.....	118
5.4	Reaction with N, N' Dimethyl Urea: .....	118
5.5	Reaction with Thiourea: .....	120
5.6	Reaction with N-Methyl Thiourea: .....	121
5.7	Reaction with N-Phenyl Thiourea:.....	122
5.8	Proposed Mechanisms:.....	123
5.8.1	Compound (26, 31 & 33) Formation: .....	123
5.8.2	Compound (27 & 28) Formation: .....	124
5.8.3	Compound (35) Formation: .....	127
5.8.4	Compound (29,30,32,34,36,37,40,41) Formation: .....	127
5.9	Color Reactions In Acidic Media:.....	129
5.10	Biological Activity of Isoindolines and Isobenzofuran:.....	131
5.10.1	Antibacterial Activity:.....	132
5.10.2	Preliminary Antifungal Screening: .....	133
5.10.3	Detailed Antifungal Study: .....	133
5.11	X-Ray Crystallographic Studies of Compound (26): .....	136

5.12	X-Ray Crystallographic Studies of (31): .....	137
5.13	X-Ray Crystallographic Studies of (33): .....	138
5.14	X-Ray Crystallographic Studies of (35): .....	139
5.15	X-Ray Crystallographic Studies of (38): .....	140
5.16	X-Ray Crystallographic Studies of (39): .....	141
<b>Part II: Surface Functionalisation of Polymer with Urea &amp; Thiourea</b>		
<b>Functions: .....</b>		
5.17	Uramil & 2-Thiouramil Reaction with Modified Polymers: .....	143
5.17.1	Reaction of Phenyl Isocyanate Product with Polymer: .....	144
5.17.2	Reaction of Phenyl Isothiocyanate Products with Polymer: .....	145
5.17.3	Modification of the Polymers: .....	147
5.18	Results of Surface Analysis: .....	148
5.18.1	ATR-IR: .....	148
5.18.2	XPS: .....	153
5.18.3	Elemental Analysis of the Polymer Samples: .....	156
5.19	Iodometric Titration Results: .....	158
5.19.1	Hydrogen Peroxide Loading Results on Polymer: .....	158
5.19.2	Stability of Hydrogen Peroxide Loaded Functionalised Polymer: .....	159
5.20	Bioassay of Polymer Samples: .....	161
5.21	Conclusion: .....	162
<b>Future Prospects.....</b>		<b>167</b>
