

Table of Contents

LIST OF FIGURES.....	x
LIST OF TABLES.....	xi
LIST OF ABBREVIATIONS	xii
Introduction	1
1.1 Motivation	1
1.2 Problem Statement	3
1.3 Research Hypothesis and Questions.....	4
1.4 Research Methodology	6
1.5 Thesis Outline.....	8
Literature Review	10
2.1 Introduction	10
2.2 Mobile Agents	10
2.3 Teamwork among Agents	13
2.4 Semantic Policies	16
2.4.1 Ontology based Policies Approach	18
2.5 Formal Modeling and Specification	22
2.6 Agents in Disaster Management Systems	23
2.7 Summary	25
Teamwork in Mobile Agents	27
3.1 Introduction	27
3.2 Honey Bee and Mobile Agents	27
3.3 Teamwork Architecture.....	29
3.3.1 Team Leader Strategy	31
3.3.2 Non Team-Leader Strategy	34
3.4 Teamwork in Earthquake Management System (EMS).....	36
Semantic Policies	38
4.1 Introduction	38
4.2 Role of Policies	38
4.3 Goal Oriented Policies.....	39
4.4 Ontology-Policy Architecture	43
4.5 Summary	45
Role of Agents in EMS	47
5.1 Introduction	47
5.2 EMS Application	47
5.3 Formalizing System Architecture.....	49
5.4 Operation Activity	50
5.5 Summary	52
Implementation.....	53
6.1 Proof of Concept Application – EMS	53
6.2 Implementation.....	55
6.3. Formal Model using Pi-Calculus.....	58
6.3.1 Pi-Calculus Notation	58
6.3.2 Agents Description	60

6.4 Major Activities	64
6.5 Pi-ADL Specification	66
6.5.1 EMS Specification in Pi-ADL	67
6.6 Summary	73
Evaluation	75
7.1 Teamwork Evaluation	75
7.2 Ontology based Policies Evaluation	79
7.3 Evaluation of Formal Specifications	86
7.4 Summary	87
Discussion	89
8.1 Analysis of Teamwork Results	89
8.2 Review of Semantic policies approach	90
8.3 Revisiting the EMS Application	91
8.4 Summary	92
Conclusion	93
9.1 Future Work	95
PUBLICATIONS	96
REFERENCES	98
APPENDIX – A	110
