Contents	v
Abstract	vii
Acknowledgement	viii
Preface	1
1 Preliminaries	5
1.1 Graded rings and modules	5
1.2 Monomial ideals	9
1.3 Primary decomposition of modules	10
1.4 Dimension theory	11
1.5 Regular sequences and depth	13
1.6 Koszul complex and Koszul homology	18
1.7 Prime filtrations	20
2 Stanley decompositions, pretty clean filtrations and reductions modulo regular elements	22
2.1 Stanley decompositions of multigraded modules	22
2.2 Prime filtrations and Stanley decompositions	24
2.3 Stanley's conjecture	25
2.4 Stanley decompositions and regular elements	28

2.5	Pretty clean filtrations and regular elements	32
2.6	Behavior of depth, Stanley depth and dimension on algebra tensor products	36
3	Depth, Stanley depth and dimension of multigraded modules	40
3.1	Behavior of depth, Stanley depth and dimension under reduction modulo an element	40
3.2	Behavior of depth, Stanley depth and dimension on short exact sequences	47
	Open questions	50
	Bibliography	53
