### PART-A

## CHEMICAL ANALYSIS OF BISPHENOL A

Sr. No.	Title	Pg. No
<b>CHAPTER-1</b>	<b>GENERAL INTRODUCTION AND LITERATURE</b>	1
	<b>REVIEW .....</b>	
1.	General introduction and literature review .....	1
1.1	Introduction .....	1
1.1.1	Human health .....	1
1.1.2	Food safety.....	2
1.1.2.1	Importance of food safety.....	2
1.1.2.2	Food storage and preservation .....	2

1.1.3	Food and beverages.....	3
1.1.3.1	Importance of food and beverages.....	3
1.1.3.2	Health risks from beverages and food .....	3
1.1.4	Food contaminant's impact on health .....	4
1.1.4.1	Biological risks .....	4
1.1.4.2	Chemical risks .....	4
1.1.4.3	Environmental contaminants .....	5
1.1.4.4	Health hazards from Agrochemicals.....	5
1.1.4.4.1	Dichloro-Diphenyl-Trichloroethane (DDT) .....	6
1.1.4.4.2	Polychlorinated Biphenyls (PCBs) .....	6
1.1.4.4.3	Polybrominated Diphenyl Ethers (PBDEs) .....	7
1.1.4.4.4	Phthalates .....	7
1.1.4.4.5	Alkylphenols .....	7
1.1.4.4.6	Other suspected endocrine disruptors.....	7
1.1.4.4.7	Plastic degradation contaminants .....	8
1.1.5	Poly carbonate plastics and resins.....	8
1.1.5.1	Sources of BPA exposure .....	9
1.1.5.2	Effects of BPA on health .....	9
1.1.5.2.1	Obesity .....	9
1.1.5.2.2	Neurological issues .....	10
1.1.5.2.3	Thyroid function.....	10
1.1.6	Cancer research .....	11
1.1.6.1	Breast cancer.....	11

1.1.6.2	Neuroblastoma .....	11
1.1.6.3	DNA methylation.....	12
1.1.7	Reproductive system and sexual behavior research.....	12
1.1.8	Exposure of BPA in animals .....	15
1.1.9	BPA safe levels in food .....	15
1.1.10	World response on bisphenol A .....	15
1.7.1	New Zealand and Australia .....	15
1.7.2	Canada .....	16
1.7.3	European Union .....	16
1.7.4	Pakistan .....	16
1.2	Literature review.....	16
<b>CHAPTER-2</b>	<b>EXPERIMENTAL PART-A .....</b>	<b>25</b>
2.	Experimental .....	25
2.1	BPA analysis of natural water.....	25
2.2	BPA analysis of water filtered through commercial filters; A case study .....	25
2.3	BPA analysis of mineral water.....	25
2.4	BPA analysis of beverages.....	26
2.5	BPA analysis of milk and milk products.....	26
2.5.1	BPA Analysis of Fresh Cow milk samples .....	26
2.5.2	BPA Analysis of Preserved and pasteurized samples .....	27
2.5.3	BPA analysis of dairy products .....	27
2.6	BPA analysis of ketchups and sauces .....	27

2.7	BPA analysis of pulses, spices and custard powders .....	27
2.8	BPA analysis of Tupperware.....	28
2.9	Migration rate studies of BPA in liquid food .....	28
2.9.1	Migration in drinking water and plastic packed fizzy drinks	28
2.9.2	Migration in milk .....	28
2.10	Sample preparation and analysis .....	31
2.10.1	Reagents .....	31
2.10.2	Sample preparation for HPLC analysis .....	31
2.10.3	HPLC analysis parameters .....	31
2.11	Quality control and quality assurance .....	31
2.11.1	Calibration of instrument .....	32
2.11.2	Precision and accuracy .....	32
2.11.3	Statistical analysis .....	32
<b>CHAPTER-3</b>	<b>RESULTS PART-A .....</b>	<b>37</b>
<b>CHAPTER-4</b>	<b>DISCUSSION PART-A .....</b>	<b>59</b>
4.	Discussion .....	59
4.1	BPA analysis of natural water .....	59
4.2	BPA analysis of water filtered through commercial filters: A case study .....	65
4.3	BPA analysis of mineral water .....	66
4.4	BPA analysis of beverages .....	68
4.4.1	BPA analysis of canned fizzy drinks .....	68
4.4.2	BPA analysis of refreshing syrups sold in plastic bottles .....	69
4.4.3	BPA analysis of fizzy drinks packed in plastic bottles .....	70
4.4.4	BPA analysis of tetra-packed juices .....	74

4.4.5 Comparison of mean BPA values of drinks in different plastic packing .....77

4.5 BPA analysis of milk and milk products .....78

4.5.1 Analysis of BPA in fresh cow milk samples .....78

4.5.2 BPA analysis of commercial pasteurized milk .....79

4.5.3 BPA analysis in tetra packed milk and creams .....80

4.5.4 BPA analysis of ice creams.....81

4.6 BPA analysis of ketchups and sauces .....83

4.7 BPA analysis of pulses, spices and custard powders .....85

4.7.1 BPA analysis of pulses.....85

4.7.2 BPA analysis of spices.....86

4.7.3 BPA analysis of custard powders. ....87

4.8 BPA analysis of Tupperware.....88

4.9 Migration rate studies .....89

4.9.1 Migration studies of BPA in beverages .....90

4.9.2 BPA migration in mineral water .....90

4.9.3 Migration of BPA in milk .....91

4.10 Conclusion.....94

**PART-B**

**ENVIRONMENTAL IMPACT OF BISPHENOL A**

**CHAPTER-5 GENERAL INTRODUCTION AND LITERATURE REVIEW 97**

5 General introduction and literature review .....97

5.1 Evidence of BPA in human.....97

5.2 BPA levels in human .....97

5.3	BPA in breast milk.....	98
5.4	Bisphenol A analysis in blood and urine samples .....	98
<b>CHAPTER-6 EXPERIMENTAL PART-B .....</b>		<b>102</b>
6	Experimental .....	102
6.1	BPA health Risk assessment from dietary sources .....	102
6.1.1	Calculation of Tolerable Daily Intakes (TDIs) .....	102
6.1.2	Calculations of Estimated Exposure Doses (EEDs).....	102
6.1.3	Calculations of MOEs .....	103
6.2	Bio-monitoring of BPA on the basis of case studies .....	106
6.2.1	Bio-monitoring of Lahore population to BPA exposures: Case106 study-1 .....	
6.2.1.1	Sample collection .....	106
6.2.1.2	Sample preparation .....	106
6.2.1.3	HPLC parameters .....	106
6.2.1.4	Chemicals and reagents.....	107
6.2.2	Impact assessment of BPA exposure to breast fed babies:109 Case study-2.....	
6.2.2.1	Sample types and collection .....	109
6.2.2.2	Urine and milk sample preparation.....	109
6.2.3	Effect of social status on BPA exposures: Case study-3.....	110
6.2.3.1	Collection of data .....	110
6.2.3.2	Sampling plan .....	111
6.2.3.3	Sample collection and preparation .....	113
6.2.4	Economic impact of replacing BPA containing kitchen and113 tableware: Case study-4 .....	

<b>CHAPTER-7</b>	<b>RESULTS PART-B .....</b>	<b>114</b>
7.1	Risk assessment from dietary sources .....	114
7.2	Bio-monitoring of BPA on the basis of case studies.....	122
<b>CHAPTER-8</b>	<b>DISCUSSION PART-B.....</b>	<b>132</b>
8	Discussion .....	132
8.1	BPA health risk assessment from dietary sources.....	132
8.1.1	Tolerable Daily Intakes (TDIs)/hazard identification .....	132
8.1.1.1	TDI values of BPA for food and beverage consumption.....	133
8.1.2	Estimated Exposure Doses (EEDs) for BPA .....	136
8.1.2.1	Estimated Exposure Doses (EEDs) for BPA based on gender and age .....	138
8.1.2.2	Percentage of allowed TDI for different age Groups and gender .....	139
8.1.3	Risk characterization using Margins Of Exposure (MOEs) ...	140
8.2	Bio-monitoring of BPA on the basis of case studies .....	145
8.2.1	Bio-monitoring of Lahore population to BPA exposure: Case study-1 .....	145
8.2.1.1	Survey: Demographic characteristics .....	146
8.2.1.2	Cancer risk assessment based on bio-monitoring ...	151
8.2.2	Impact assessment of BPA exposure to the breast fed babies: Case study-2 .....	152
8.2.2.1	BPA concentrations in breast milk and urine sample based on age of lactating mothers.....	152
8.2.2.2	BPA concentrations based on body weight of lactating mothers .....	154
8.2.2.3	BPA exposure to breast fed babies based on their	155

	age .....	
8.2.3	Effect of social status on BPA exposure: Case study-3 .....	155
8.2.3.1	Demographic characteristics of three SECs .....	155
8.2.3.2	BPA exposures in three SECs based on gender .....	158
8.2.4	Economic impact of replacing BPA containing kitchen and tableware: Case study-4 .....	158
8.3	Conclusion and recommendations .....	159
8.3.1	Mitigation options .....	160
<b>CHAPTER-9</b>	<b>REFERENCES .....</b>	<b>161</b>
Annexure-1	.....	183
Annexure-2	.....	186
Annexure-3	.....	191
